1. DOCUMENT CONTROL & COMPANY OVERVIEW

Strativa Consulting is a premium business consulting, strategy development, project management, market research, branding, marketing, digital business support, and financial planning firm based in Karachi, Pakistan. This Organizational Chart and Job Descriptions Manual (Document Reference: **STR-HR-ORG-012**) serves as the definitive structural governance document for the company's human capital and operational roles.

Company Name	Strativa Consulting	**Tagline**	Smart Strategies. Sustainable Growth.
Document Code	STR-HR-ORG-012	**Effective Date**	19 October 2026
Prepared By	Human Resources / Management	**Approved By**	Managing Director / Founder

2. PURPOSE OF THE DOCUMENT

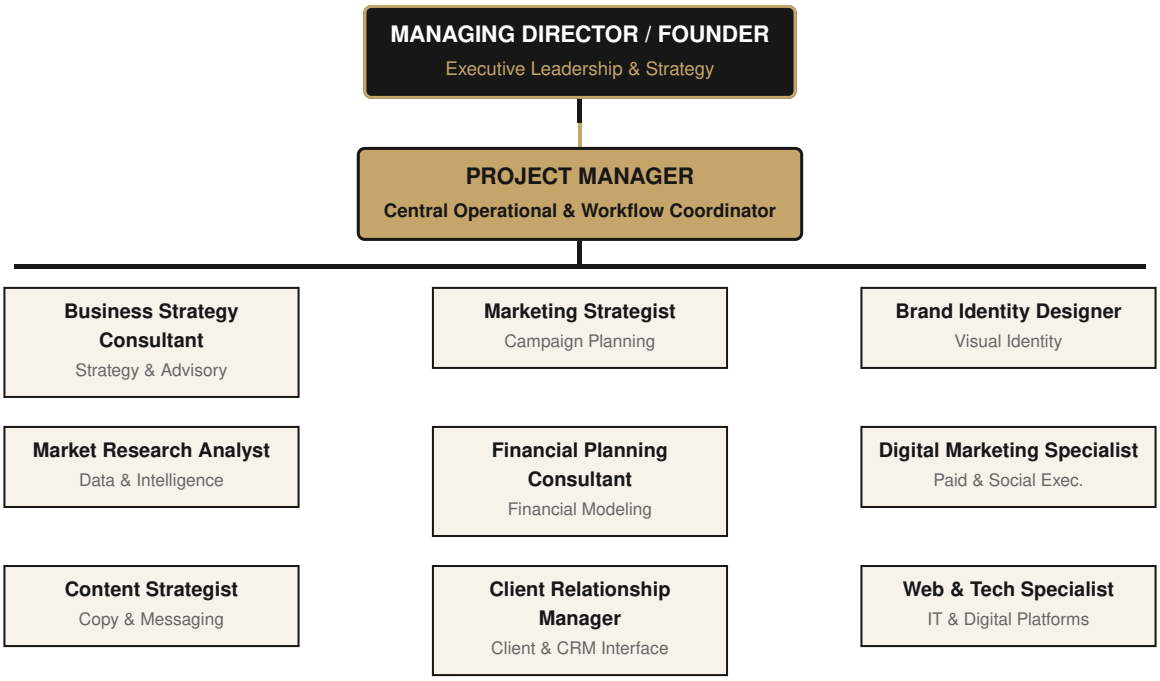

As a growing startup in Karachi, establishing structural clarity is essential to prevent operational ambiguity, duplicated work, and uncoordinated client communications. This manual provides an explicit framework designed to:

- **Define Responsibilities and Accountability:** Clearly outline individual ownership for every deliverable, task, and strategic domain across all 11 company roles.
- **Establish Clear Reporting Relationships:** Delineate formal reporting hierarchy (solid lines) versus cross-functional project coordination (dotted lines) centered around central project management.
- **Eliminate Role Confusion:** Prevent overlaps in decision-making and ensure team members understand their exact scope of work.
- **Clarify Decision-Making Authority:** Explicitly outline financial, operational, and client-facing approval limits for every position.
- **Enhance Cross-Team Collaboration:** Streamline inter-departmental workflows between strategy, design, marketing, research, finance, tech, and client management.
- **Support Service Quality Control:** Align role-specific tasks with Strativa Consulting's Quality Assurance (QA) and Quality Control (QC) standards.

> **ACADEMIC & HYPOTHETICAL DISCLAIMER**
> This document is prepared as a comprehensive organizational design blueprint for a hypothetical consulting startup in Karachi for academic final project submission. All positions, reporting lines, approval limits, and workflows represent proposed internal policies subject to review and adaptation by management as the startup scales. Hypothetical client references (such as the boutique fashion brand AZ Signature) are utilized strictly as illustrative operational examples.

3. VISUAL ORGANIZATIONAL CHART — ALL 11 POSITIONS

The visual organizational chart illustrates the flow of authority, reporting, and functional project coordination across Strativa Consulting. The Managing Director / Founder retains executive leadership and policy authority. The Project Manager serves as the central operational coordinator for day-to-day project execution, milestone tracking, and task allocation across all functional specialists.

Organizational Line Legend:
Solid Line (—): Formal Direct Reporting Hierarchy (Specialists report operationally to Project Manager; PM reports to MD).
Dotted Line (- - -): Functional Cross-Team Coordination & Executive Strategy Oversight (MD provides final policy & major proposal approvals; specialists coordinate horizontally across active client engagements).

4. JOB DESCRIPTIONS FOR ALL 11 POSITIONS

Detailed job descriptions for every role at Strativa Consulting are outlined below. Each job description defines the job title, department, reporting lines, core purpose, routine duties, competencies, expected deliverables, authority boundaries, and Key Performance Indicators (KPIs).

4.1 Managing Director / Founder

Department: Executive Management & Strategy **Reports To:** Board / Advisory (Founders)

Works Closely With: Project Manager, Strategy Consultant, Client Relationship Manager, External Legal/Tax Advisors.

Job Purpose: Provide executive leadership, strategic direction, corporate governance, financial oversight, high-level business development, and final policy/proposal sign-off for Strativa Consulting.

Main Duties & Responsibilities:

- Formulate long-term business strategy, vision, corporate goals, and operational expansion plans.
- Maintain final approval authority over major client proposals, high-value contracts, and company SOPs.
- Oversee company financial health, budget allocations, capital investments, and profitability.
- Lead executive client networking, strategic partnerships, and high-stakes sales presentations.
- Enforce corporate governance, legal compliance, risk management, and ethical standards.

Daily / Routine Activities: Review executive KPIs, approve major client proposals, meet high-tier prospective clients, monitor overall financial status, and conduct weekly operational alignment with Project Manager.

Required Skills & Competencies: Strategic vision, corporate finance, executive negotiation, business development, team leadership, risk management, and deep understanding of the Pakistani consulting market.

Expected Work Outputs / Deliverables: Annual Corporate Strategy Plan, Approved Company SOPs, Signed Major Client Contracts, Quarterly Financial Reports, and Executive Governance Audits.

Decision-Making Authority: Absolute final authority over all financial, operational, hiring, policy, legal, and commercial commitments (subject to applicable laws).

Approval Limits & Restrictions: Final approval required for contracts exceeding PKR [Management-Approved Limit], official discounts, policy revisions, and hiring/termination decisions.

Key Performance Indicators (KPIs): Annual Revenue Growth (%), Profit Margin (%), High-Value Client Conversion Rate (%), Client Retention Rate (%), and Company Operational Compliance Rate (100%).

4.2 Project Manager

Department: Operations & Project Governance **Reports To:** Managing Director / Founder

Works Closely With: All Functional Specialists, Client Relationship Manager.

Job Purpose: Serve as central operational coordinator responsible for daily task allocation, project schedule tracking, resource management, quality control enforcement, and milestone delivery across all client accounts.

Main Duties & Responsibilities:

- Develop detailed Statements of Work (SOW), project plans, Gantt charts, and resource allocation schedules.
- Assign daily tasks to functional specialists based on skills, project priorities, and workload availability.
- Monitor task completion, project deadlines, quality checkpoints, and team productivity.
- Coordinate cross-functional project teams during daily morning standup check-ins.
- Manage operational delays, technical bottlenecks, scope variations, and escalate critical risks to Managing Director.

Daily / Routine Activities: Lead morning team standup, update central project tracker, conduct internal QC reviews on draft deliverables, track project milestones, and resolve daily task dependencies.

Required Skills & Competencies: PMP/Agile methodology, team coordination, risk management, quality control inspection, workflow optimization, and proficient use of project management tools.

Expected Work Outputs / Deliverables: Project Master Schedules, Daily Task Allocation Registers, Weekly Work Progress Reports, QC Inspection Records (Form STR-QC-01), and Project Closure Reports.

Decision-Making Authority: Authority over daily task scheduling, internal deadline adjustments (up to 24 hours), resource re-allocations, and QC approval sign-offs.

Approval Limits & Restrictions: Cannot modify agreed client contract budgets, change final client delivery dates, or issue client fee revisions without Managing Director approval.

Key Performance Indicators (KPIs): On-Time Project Delivery Rate (≥95%), On-Time Task Completion Rate (≥90%), First-Pass QC Approval Rate (≥85%), and Overdue Task Count (<5/week).

4.3 Business Strategy Consultant

Department: Advisory & Business Strategy **Reports To:** Project Manager

Works Closely With: Market Research Analyst, Financial Planning Consultant, Managing Director.

Job Purpose: Formulate actionable business strategies, growth frameworks, market entry roadmaps, and feasibility studies for clients seeking commercial optimization.

Main Duties & Responsibilities:

- Analyze client business models, operational structures, competitive positioning, and growth challenges.
- Conduct strategic frameworks analysis (SWOT, PESTLE, Porter's Five Forces, Value Chain).
- Synthesize market research data into strategic advisory reports, executive summaries, and action plans.
- Present strategy recommendations to client leadership during formal workshops and review sessions.
- Collaborate with financial and marketing consultants to align strategic models with commercial projections.

Daily / Routine Activities: Review industry research data, draft strategy report chapters, build strategic matrix diagrams, participate in client discovery calls, and refine advisory presentations.

Required Skills & Competencies: Strategic thinking, business modeling, qualitative research synthesis, analytical problem solving, management consulting frameworks, and executive presentation skills.

Expected Work Outputs / Deliverables: Business Strategy Reports, Growth Roadmaps, SWOT/PESTLE Matrix Documents, Feasibility Studies, and Strategic Advisory Presentations.

Decision-Making Authority: Recommends strategic options and analytical models for client projects; determines internal drafting structure for strategy reports.

Approval Limits & Restrictions: Strategic reports require Project Manager QC check and Managing Director sign-off prior to external release.

Key Performance Indicators (KPIs): Strategic Deliverable Quality Score (≥90%), Client Strategic Acceptance Rate (≥85%), On-Time Draft Submission Rate (≥95%), and Report First-Pass Pass Rate (≥85%).

4.4 Marketing Strategist

Department: Marketing & Brand Consulting **Reports To:** Project Manager

Works Closely With: Brand Identity Designer, Content Strategist, Digital Marketing Specialist, Research Analyst.

Job Purpose: Design comprehensive marketing strategies, customer acquisition plans, brand positioning frameworks, and campaign roadmaps tailored to client target markets.

Main Duties & Responsibilities:

- Develop omni-channel marketing strategy roadmaps, target buyer personas, and customer journey maps.
- Define brand positioning, Unique Selling Propositions (USPs), value propositions, and messaging pillars.
- Structure promotional campaign architectures, channel selection strategies, and campaign timelines.
- Collaborate with Brand Designers and Content Strategists to translate marketing plans into creative assets.
- Evaluate client marketing ROI, customer acquisition costs (CAC), and channel performance metrics.

Daily / Routine Activities: Draft campaign briefs, review consumer demographic data, map customer acquisition funnels, align content/creative plans, and analyze marketing campaign effectiveness.

Required Skills & Competencies: Omni-channel marketing strategy, buyer persona profiling, brand positioning, funnel optimization, campaign brief writing, and marketing performance analytics.

Expected Work Outputs / Deliverables: Integrated Marketing Strategy Plans, Campaign Architecture Briefs, Buyer Persona Profiles, Positioning Statements, and Marketing ROI Analysis Reports.

Decision-Making Authority: Approves strategic marketing direction, target audience segmentations, and messaging concepts within assigned client projects.

Approval Limits & Restrictions: Marketing plans and budget recommendations require Project Manager approval; cannot alter ad spend allocations without client sign-off.

Key Performance Indicators (KPIs): Marketing Strategy Delivery Punctuality (≥95%), Campaign Objective Achievement Rate (≥85%), Client Campaign Approval Rate (≥90%), and Strategy QC Pass Rate (≥90%).

4.5 Brand Identity Designer

Department: Design & Creative Services **Reports To:** Project Manager

Works Closely With: Marketing Strategist, Content Strategist, Web & Tech Specialist.

Job Purpose: Conceptualize and produce visual identity assets, logo systems, color palettes, typography guidelines, brand manuals, and marketing collateral adhering to brand standards.

Main Duties & Responsibilities:

- Design primary/secondary logos, icon sets, visual marks, typography systems, and color palettes.
- Create comprehensive Brand Identity Guidelines manuals detailing clear space, sizing, and background rules.
- Develop digital and print collateral including social media templates, business cards, pitch decks, and brochures.
- Ensure strict visual compliance with Strativa Consulting's corporate identity (#171717, #C6A56B, #F7F3EB).
- Prepare production-ready vector files (EPS, SVG, PDF) and export optimized digital web assets.

Daily / Routine Activities: Create vector graphic artwork, design brand layout guidelines, format corporate presentation decks, export image files, and review design alignment against brief requirements.

Required Skills & Competencies: Mastery of Adobe Creative Cloud (Illustrator, Photoshop, InDesign), typography design, layout grid systems, visual color theory, vector artwork, and brand identity systems.

Expected Work Outputs / Deliverables: Logo Package Files (Vector/Raster), Brand Guidelines Manuals, Social Media Graphic Suites, Presentation Templates, and Print Collateral Files.

Decision-Making Authority: Authority over visual aesthetics, graphic layout composition, color harmony, and visual execution details within approved creative briefs.

Approval Limits & Restrictions: All final design assets require Project Manager QC approval; cannot release final brand packages directly to clients without approval.

Key Performance Indicators (KPIs): Design First-Pass Approval Rate (≥85%), Brand Guideline Compliance Rate (100%), Design Task Delivery Punctuality (≥95%), and Asset Defect Rate (≤5%).

4.6 Market Research Analyst

Department: Market Research & Intelligence **Reports To:** Project Manager

Works Closely With: Business Strategy Consultant, Marketing Strategist, Financial Planning Consultant.

Job Purpose: Plan, gather, verify, and analyze primary and secondary market data to generate objective market intelligence, competitor benchmarking, and consumer insights.

Main Duties & Responsibilities:

- Execute secondary research utilizing recognized economic, academic, government, and industry databases.
- Design and distribute primary research instruments (surveys, interview guides, focus group protocols).
- Conduct competitor profiling, pricing analysis, market share estimation, and industry trend benchmarking.
- Verify research data sources, validate statistical sampling, and cross-reference empirical findings.
- Synthesize raw quantitative data into clean data charts, summary tables, and analytical research briefs.

Daily / Routine Activities: Perform web research, clean quantitative survey data, verify source citations, draft market analysis sections, create data charts, and update competitor intelligence logs.

Required Skills & Competencies: Quantitative and qualitative research methodology, data verification, statistical analysis, survey design, secondary research database navigation, and analytical writing.

Expected Work Outputs / Deliverables: Market Intelligence Reports, Competitor Benchmark Matrices, Survey Analysis Dashboards, Industry Trend Summaries, and Verified Research Repositories.

Decision-Making Authority: Selects appropriate research methodologies, secondary data sources, and quantitative analytical tools for research projects.

Approval Limits & Restrictions: Research reports require data source verification by Project Manager before integration into client strategy deliverables.

Key Performance Indicators (KPIs): Data Source Verification Accuracy (100%), Research On-Time Delivery Rate (≥95%), Survey Response Reliability Index (≥90%), and Research QC Pass Rate (≥90%).

4.7 Financial Planning Consultant

Department: Financial Planning & Analysis **Reports To:** Project Manager

Works Closely With: Business Strategy Consultant, Market Research Analyst, Managing Director.

Job Purpose: Construct dynamic financial models, revenue projections, cash flow forecasts, budget estimates, and valuation analyses to support client business planning and internal profitability monitoring.

Main Duties & Responsibilities:

- Build dynamic Microsoft Excel financial models featuring flexible assumption toggles and linked calculations.
- Formulate 3-to-5 year financial forecast statements (Income Statement, Cash Flow Statement, Balance Sheet).
- Perform financial feasibility analysis, break-even calculations, sensitivity analysis, and ROI estimates.
- Analyze client cost structures, operating margins, pricing models, and capital allocation strategies.
- Provide financial assumption verification and coordinate financial risk assessments with management.

Daily / Routine Activities: Audit financial model formulas, update financial assumption tables, draft financial analysis chapters, perform scenario modeling, and review financial report accuracy.

Required Skills & Competencies: Advanced financial modeling (Excel), financial statement analysis, valuation techniques, cash flow forecasting, budgeting, and sensitivity modeling.

Expected Work Outputs / Deliverables: Dynamic Financial Models (.xlsx), Financial Feasibility Reports, 3-Year Cash Flow Projections, Break-Even Analyses, and Financial Assumptions Documentation.

Decision-Making Authority: Determines financial modeling formulas, dynamic assumptions structure, and financial evaluation methodologies within assigned client scope.

Approval Limits & Restrictions: Financial models require formula audit by Project Manager; consultant cannot authorize actual company expenses or issue financial guarantees.

Key Performance Indicators (KPIs): Financial Model Accuracy Rate (100% Zero Formula Errors), On-Time Financial Delivery Rate (≥95%), Client Financial Acceptance Rate (≥90%), and Model QC Pass Rate (≥90%).

4.8 Digital Marketing Specialist

Department: Digital Operations & Media Execution **Reports To:** Project Manager

Works Closely With: Marketing Strategist, Content Strategist, Brand Identity Designer, Web Specialist.

Job Purpose: Execute paid search/social advertising campaigns, publish scheduled social content, optimize search engine visibility (SEO), and monitor digital performance metrics across client and internal channels.

Main Duties & Responsibilities:

- Set up and manage digital ad campaigns across Meta Ads, LinkedIn Campaign Manager, and Google Ads.
- Publish scheduled social media posts across client and corporate channels according to approved content calendars.
- Monitor daily ad spend pacing, cost-per-click (CPC), cost-per-lead (CPL), and conversion performance.
- Execute technical and on-page SEO optimizations, keyword tracking, and website performance audits.
- Generate monthly digital performance analytics reports summarizing reach, engagement, and conversion ROI.

Daily / Routine Activities: Schedule social posts, check active ad campaign spend and bid settings, monitor conversion tracking pixels, review social comments/DMs, and extract performance analytics.

Required Skills & Competencies: Digital ad campaign setup (Meta/Google/LinkedIn), social media publishing tools, SEO optimization, Google Analytics, digital performance tracking, and conversion rate optimization.

Expected Work Outputs / Deliverables: Configured Digital Ad Campaigns, Published Social Posts, Monthly Digital Analytics Dashboards, SEO Performance Audits, and Campaign Spend Reports.

Decision-Making Authority: Adjusts ad targeting parameters, daily bidding settings, and content publishing schedules within pre-approved campaign budgets.

Approval Limits & Restrictions: Cannot exceed approved ad campaign spending limits without written re-authorization; requires Content Strategist approval before publishing ad copy.

Key Performance Indicators (KPIs): Campaign CPL Target Achievement (≥90%), Social Publishing Accuracy Rate (≥98%), Ad Account Policy Compliance (100%), and Digital Report Delivery Punctuality (≥95%).

4.9 Content Strategist

Department: Content & Editorial Services **Reports To:** Project Manager

Works Closely With: Marketing Strategist, Brand Designer, Digital Specialist, Client Relationship Manager.

Job Purpose: Plan, write, edit, and proofread high-quality written content, editorial calendars, ad copy, whitepapers, social media captions, and corporate communications ensuring brand tone consistency.

Main Duties & Responsibilities:

- Formulate monthly social media content calendars, post topics, content briefs, and editorial schedules.
- Write compelling marketing copy, ad captions, website copy, proposal text, and thought leadership articles.
- Conduct comprehensive editorial proofreading and grammar/spelling reviews across all client deliverables.
- Enforce brand voice, tone, and brand messaging guidelines across print and digital media.
- Collaborate with Brand Designers to pair written content with visual graphic layouts.

Daily / Routine Activities: Write social post captions, draft website copy, proofread strategy reports, edit client proposal copy, format content briefs, and maintain corporate editorial calendars.

Required Skills & Competencies: Professional copywriting, editorial proofreading, brand tone formulation, content calendar planning, SEO copywriting, and exceptional English grammar proficiency.

Expected Work Outputs / Deliverables: Monthly Editorial Content Calendars, Copywriting Briefs, Proofread Report Manuscripts, Ad Copy Suites, and Corporate Messaging Guides.

Decision-Making Authority: Approves verbal tone, grammatical accuracy, editorial structure, and copy style across internal and client-facing materials.

Approval Limits & Restrictions: Content calendars and major public copywriting assets require Project Manager approval before campaign publishing.

Key Performance Indicators (KPIs): Copy Editorial Accuracy Rate (≥98% Zero Grammatical Defects), Content Calendar On-Time Delivery (≥95%), Content QC Pass Rate (≥90%), and Client Copy Acceptance (≥90%).

4.10 Client Relationship Manager

Department: Client Success & Business Development **Reports To:** Project Manager

Works Closely With: Managing Director, Project Manager, Strategy Consultant, Content Strategist.

Job Purpose: Manage client communications, onboarding workflows, discovery meeting scheduling, progress updates, feedback collection, CRM records, and relationship retention across all active accounts.

Main Duties & Responsibilities:

- Lead client onboarding, schedule discovery calls, and maintain clear ongoing client communication channels.
- Log inbound client inquiries, maintain CRM lead records, and track client account status.
- Distribute approved project progress updates, draft review links, and meeting agendas to clients.
- Collect client feedback post-delivery, record revision requests, and conduct CSAT survey evaluations.
- Route client complaints or scope alteration requests immediately to the Project Manager and Managing Director.

Daily / Routine Activities: Respond to client emails/inquiries, log lead interactions in CRM, schedule project review meetings, send courtesy progress updates, and collect post-project client feedback.

Required Skills & Competencies: Client relationship management, executive communication, conflict resolution, CRM software management, meeting facilitation, and customer service empathy.

Expected Work Outputs / Deliverables: CRM Lead & Account Records, Client Meeting Minutes (MoM), Client Onboarding Packages, CSAT Feedback Reports, and Client Communication Logs.

Decision-Making Authority: Manages routine client meeting logistics, courtesy communication timing, and CRM data entry workflows.

Approval Limits & Restrictions: Strictly prohibited from independently promising unapproved price discounts, fee waivers, contract revisions, or altered delivery deadlines to clients.

Key Performance Indicators (KPIs): Client Response Time (<2 hours), Client Satisfaction Score (CSAT ≥90%), CRM Record Accuracy Rate (100%), and Onboarding Completion Rate (≥95%).

4.11 Web and Technology Specialist

Department: Technology & Digital Infrastructure **Reports To:** Project Manager

Works Closely With: Brand Designer, Digital Specialist, Project Manager, Managing Director.

Job Purpose: Maintain corporate and client web platforms, manage cloud repositories, enforce IT security protocols, troubleshoot digital tools, and execute technical web implementation tasks.

Main Duties & Responsibilities:

- Maintain company and client websites (@strativa.pk), ensuring page responsiveness, speed, and SSL security.
- Manage user access permissions, multi-factor authentication, and folder security across Google Cloud Enterprise Drive.
- Troubleshoot technical issues across digital project management software, CRM tools, and communication channels.
- Execute website maintenance, CMS software updates, security patch deployment, and automated cloud backups.
- Conduct technical quality checks on digital deliverables (broken link checks, form functionality, cross-browser tests).

Daily / Routine Activities: Monitor website uptime and server logs, manage user software permissions, run cloud backup checks, resolve IT support tickets, and update web content code.

Required Skills & Competencies: Web development (HTML/CSS/WordPress/JS), cloud administration (Google Workspace), cybersecurity best practices, SSL management, IT troubleshooting, and database backups.

Expected Work Outputs / Deliverables: Fully Operational Corporate Website, Cloud Backup Logs, IT Security Access Audits, Web Technical QC Checklists, and System Uptime Reports.

Decision-Making Authority: Determines technical implementation methods, CMS plugin selections, IT troubleshooting steps, and backup protocols.

Approval Limits & Restrictions: Cannot alter domain registration settings, purchase new software subscriptions, or modify user access levels without Project Manager approval.

Key Performance Indicators (KPIs): Website Uptime (≥99.5%), IT Issue Resolution Time (<4 hours), Cloud Backup Reliability (100%), and Web Technical QC Pass Rate (≥95%).

5. REPORTING RELATIONSHIPS AND AUTHORITY FLOW

Operational efficiency and quality control rely on clear chains of command. At Strativa Consulting, information and decisions flow vertically for formal governance and horizontally for cross-functional project execution. The Project Manager oversees daily workflow execution, while the Managing Director retains final executive authority over policies, major client commitments, and financial disbursements.

5.1 Corporate Reporting and Escalation Matrix

Position Title	Direct Reporting To	Functional Coordination With	Routine Reporting Responsibility	Escalation Contact
Managing Director / Founder	Board / Advisory	All Department Leads	Annual Governance & Financial Audits	Legal / Advisory Lead
Project Manager	Managing Director	All Functional Specialists	Daily Standups & Weekly Progress Reports	Managing Director
Business Strategy Consultant	Project Manager	Research & Financial Leads	Daily Task Log & Draft Strategy Milestone Review	Project Manager
Marketing Strategist	Project Manager	Design, Content & Digital Leads	Campaign Briefs & Strategy Progress Logs	Project Manager
Brand Identity Designer	Project Manager	Marketing & Content Leads	Daily Creative Output & Proof Asset Logs	Project Manager
Market Research Analyst	Project Manager	Strategy & Financial Leads	Research Repository Updates & Data Briefs	Project Manager
Financial Planning Consultant	Project Manager	Strategy & Research Leads	Financial Model Audit Logs & Feasibility Drafts	Project Manager
Digital Marketing Specialist	Project Manager	Marketing & Content Leads	Daily Ad Spend Logs & Monthly Analytics	Project Manager
Content Strategist	Project Manager	Marketing & Design Leads	Editorial Calendars & Proofreading Logs	Project Manager
Client Relationship Manager	Project Manager	Strategy & Content Leads	Daily CRM Inbound Logs & Client Meeting MoM	Project Manager
Web & Technology Specialist	Project Manager	Design & Digital Leads	System Uptime Logs & IT Support Tickets	Project Manager

6. APPROVAL LIMITS AND DECISION-MAKING BOUNDARIES

To preserve financial discipline and operational compliance, decision-making authority across Strativa Consulting is governed by defined approval limits. All threshold limits are proposed internal policies for a hypothetical startup.

6.1 Corporate Decision Approval Authority Matrix

Decision / Operational Action Category	Initiated By	Reviewed By	Final Approval Authority	Required Documentation / Restrictions
Routine Daily Task Assignments	Specialist / PM	Project Manager	Project Manager	Logged in Central Task Tracker.
Internal Task Deadline Shift (<24 hrs)	Task Owner	Project Manager	Project Manager	Must not shift agreed client milestone date.
Client Milestone / Schedule Extension	Project Manager	Managing Director	Managing Director	Written client notification & SOW amendment.
Draft Consulting Deliverable Release	Functional Specialist	Project Manager	Project Manager	Completed QC Checklist (Form STR-QC-01).
Final Client-Facing Report Sign-off	Project Manager	Managing Director	Managing Director	Formal Sign-off Sheet & Executive Review.
Marketing Content & Ad Copy Release	Digital Specialist	Content Strategist	Project Manager	Editorial proofreading verification.
Research Data & Citation Claims Approval	Research Analyst	Strategy Lead	Project Manager	100% Data source verification audit.
Project Expense / Software Purchases	Specialist / PM	Project Manager	Managing Director	Requires Purchase Requisition (STR-FIN-01).
Contract Budget & Fee Modifications	Client Lead / PM	Project Manager	Managing Director	Formal Scope Variation Sign-off.
Client Discounts / Fee Refunds	Client Lead	Managing Director	Managing Director	Requires written justification & MD approval.
Sharing Confidential Client Data	Specialist	Project Manager	Managing Director	Signed Client NDA verification required.
Hiring, Personnel & Salary Decisions	Department Lead	Project Manager	Managing Director	Requires HR Requisition & Founder Approval.
Company Policy & SOP Revisions	Operations Lead	Project Manager	Managing Director	Document Control revision log entry.

> **FINANCIAL DISBURSEMENT RULE**
> No employee or functional consultant may independently obligate Strativa Consulting to unapproved financial expenses, client fee waivers, or contractual commitments exceeding PKR [Management-Approved Limit] without written authorization from the Managing Director.

7. CROSS-TEAM COORDINATION & WORKFLOW EXAMPLE

To demonstrate practical cross-team collaboration across all 11 positions, the following section outlines a hypothetical client project workflow for **AZ Signature** (a boutique women's fashion retailer in Karachi requiring a brand refresh, e-commerce growth strategy, and financial feasibility plan).

HYPOTHETICAL CLIENT WORKFLOW EXAMPLE: AZ SIGNATURE REBRANDING & GROWTH STRATEGY

Stage 1: Inquiry & Discovery: Client Relationship Manager receives inquiry from AZ Signature owner, logs contact in CRM, and schedules discovery call with Strategy Lead.

Stage 2: Proposal & Contracting: Project Manager drafts Scope of Work (SOW) and timeline. Managing Director approves proposal budget. Client signs agreement and submits deposit.

Stage 3: Research & Intelligence: Market Research Analyst conducts Karachi retail apparel market benchmarking, competitor pricing studies, and customer preference surveys.

Stage 4: Strategy & Financial Modeling: Business Strategy Consultant formulates e-commerce growth roadmap. Financial Planning Consultant constructs 3-year cash flow forecast model.

Stage 5: Creative & Marketing Development: Marketing Strategist designs campaign architecture. Brand Identity Designer creates updated visual identity guidelines. Content Strategist drafts messaging and social copy.

Stage 6: Digital & Tech Setup: Digital Marketing Specialist configures Meta/Google ad structures. Web Specialist optimizes e-commerce website responsiveness and analytics tracking.

Stage 7: Quality Control & Delivery: Project Manager conducts internal QC inspection (Form STR-QC-01). Managing Director executes final sign-off. Client Manager presents deliverable package to AZ Signature leadership.

Stage 8: Closure & Archive: Client Manager collects CSAT feedback. Project Manager completes project closure checklist and archives repository.

7.1 Cross-Functional Stage Coordination Matrix

Project Stage	Lead Role	Supporting Roles	Required Communication Channel	Approval Required
1. Client Onboarding	Client Relationship Manager	Project Manager, Strategy Lead	CRM Log & Onboarding Call	Project Manager
2. Scope & Proposal	Project Manager	Strategy Lead, Client Lead	Project Plan & Proposal Brief	Managing Director
3. Market Research	Market Research Analyst	Strategy Lead, Financial Lead	Research Repository & Data Brief	Project Manager
4. Strategy & Finance	Business Strategy Consultant	Financial Lead, Research Lead	Strategy Review Sync	Project Manager
5. Brand & Marketing	Marketing Strategist	Brand Designer, Content Lead	Creative Brief & Layout Review	Project Manager
6. Digital & Tech	Digital Marketing Specialist	Web Specialist, Content Lead	Digital Operations Sync	Project Manager
7. Quality Control	Project Manager	All Specialists	QC Audit Sync (Form STR-QC-01)	Managing Director
8. Client Delivery	Client Relationship Manager	Project Manager, MD	Formal Client Meeting & Link	Managing Director

8. ACCOUNTABILITY AND PERFORMANCE EVALUATION

Performance evaluation at Strativa Consulting is conducted objectively using job-related criteria aligned with each position's job description. Evaluations occur semi-annually and focus on individual productivity, work quality, deadline adherence, and SOP compliance.

8.1 Core Evaluation Dimensions

- **Deliverable Quality & Accuracy:** First-pass pass rates during QC checks, technical accuracy, data verification integrity, and editorial quality.
- **Deadline Adherence & Punctuality:** On-time task completion rate against project schedules and morning standup commitments.
- **Role-Specific KPI Targets:** Quantitative achievement against target metrics established in each position's job description.
- **Cross-Team Collaboration & Communication:** Active participation in morning standups, clear handovers, constructive problem solving, and respectful team communication.
- **Compliance with SOPs & Brand Rules:** Strict adherence to file naming conventions, cloud security, brand guidelines, and approval limits.

9. COMMUNICATION AND ESCALATION PROCEDURE

When operational issues, technical bottlenecks, schedule delays, or client disputes arise, team members must execute a structured 7-step escalation process. Hiding problems or making uncommunicated decisions is strictly prohibited.

7-STEP OPERATIONAL ESCALATION WORKFLOW

1. Problem Identification: Specialist identifies issue (e.g., technical delay, missing research data, scope conflict) and records details.

2. Issue Logging: Record issue in central Issue Tracker within 2 hours of occurrence.

3. Routine Project Assessment: Project Manager reviews issue during daily standup or urgent sync to evaluate impact.

4. Cross-Functional Resolution: Project Manager coordinates with relevant specialists to reallocate daily tasks or adjust internal workflow.

5. Executive Escalation: If issue involves major financial cost, schedule delay >24 hrs, contract scope breach, or serious client complaint, escalate immediately to Managing Director.

6. Approved Decision Recording: Managing Director executes final decision and logs action plan in Issue Tracker.

7. Team Notification & Execution: Project Manager communicates approved decision to team and monitors recovery execution.
