1. COMPANY INFORMATION & DOCUMENT CONTROL

Strativa Consulting is a business consulting, strategy development, project management, market research, branding, marketing, digital marketing, financial planning, and website/technology support startup based in Karachi, Pakistan. This Master Policy and Document Control Register (Document Reference: **STR-DOC-REG-015**) establishes the central governance framework used to identify, track, review, approve, update, and manage all official company policies, Standard Operating Procedures (SOPs), manuals, registers, forms, and templates.

Company Name	Strativa Consulting	**Tagline**	Smart Strategies. Sustainable Growth.
Document Code	STR-DOC-REG-015	**Preparation Date**	19 October 2026
Prepared By	Administration and Operations	**Approval Authority**	Managing Director / Founder

2. PURPOSE AND OBJECTIVES OF THE REGISTER

The Master Policy and Document Control Register serves as the central control mechanism to ensure operational consistency, accountability, and regulatory compliance across Strativa Consulting. Specifically, this register and its governing procedures are designed to:

- Identify every controlled document through a unique, standardized document ID [cite: 3].
- Enable employees and management to quickly locate the latest approved version of any policy or SOP [cite: 3].
- Clearly track document owners, functional departments, and designated approval authorities [cite: 3].
- Record creation, approval, issue, effective, and review dates transparently [cite: 3].
- Monitor upcoming and overdue document reviews to ensure ongoing operational relevance [cite: 3].
- Enforce a consistent naming, versioning, and revision history system [cite: 3].
- Prevent the unintended use of outdated, superseded, or unauthorized drafts [cite: 3].
- Maintain a comprehensive audit trail of all administrative and operational changes [cite: 3].
- Improve organizational accountability, cross-functional transparency, and document accessibility [cite: 3].
- Keep controlled approved documents strictly separate from working drafts and reference materials [cite: 3].

> **ACADEMIC & HYPOTHETICAL DISCLAIMER**
> This document is prepared as a comprehensive document control register and quality management blueprint for a hypothetical consulting startup in Karachi for academic final project submission. All document entries, statuses, review schedules, and workflows represent proposed internal policies subject to formal review and approval by management before implementation [cite: 3].

3. MASTER DOCUMENT REGISTER (ALL 15 DELIVERABLES)

The following master register inventories all 15 operational deliverables prepared for Strativa Consulting [cite: 3]. In accordance with quality management standards, all documents are assigned formal document codes, functional owners, provisional approval statuses as of **19 October 2026** [cite: 3], and secure file storage paths.

4. DEPARTMENT OWNERSHIP AND AUTHORITY STRUCTURE

Document ownership and governance at Strativa Consulting are assigned across the company's established functional roles [cite: 3]. Every document has a designated owner responsible for drafting and updates, a reviewing role for technical accuracy, and an approval authority [cite: 3].

- **Managing Director / Founder:** Serves as the ultimate approval authority for all company-wide policies, strategic plans, financial manuals, and core governance documents [cite: 3].
- **Project Manager:** Responsible for operational oversight, document control administration, quality control SOPs, business continuity planning, and administrative manuals.
- **Functional Specialists:** (Business Strategy Consultant, Marketing Strategist, Brand Identity Designer, Market Research Analyst, Financial Planning Consultant, Digital Marketing Specialist, Content Strategist, Client Relationship Manager, Web and Technology Specialist) Act as document owners and reviewers for their respective technical domains [cite: 3].

5. DOCUMENT NAMING CONVENTION

To prevent confusion and ensure seamless digital retrieval, all controlled documents across Strativa Consulting must strictly adhere to a standardized file naming convention [cite: 3]:

Strativa_[DocumentTitle]_v[Major.Minor]_[YYYY-MM-DD].[ext]

Practical Naming Example: `Strativa_IT_Rules_and_Regulations_v1.0_2026-10-19.pdf` [cite: 3]

Mandatory Naming Rules:

- Use clear, descriptive titles reflecting the document's official name [cite: 3].
- Use underscores (`_`) instead of spaces or punctuation to separate name elements [cite: 3].
- Always include the formal version number prefixed by `v` (e.g., `v1.0`) [cite: 3].
- Always include the ISO standard date format `YYYY-MM-DD` representing the effective or issue date [cite: 3].
- Avoid ambiguous informal tags such as `Final`, `Final2`, `New_Draft`, or `Latest_Version` [cite: 3].
- Ensure the document ID and version number inside the document match the external file name [cite: 3].

6. VERSION CONTROL AND REVISION HISTORY SYSTEM

Strativa Consulting enforces a strict numerical version control system to track document evolution and ensure all teams operate on current information [cite: 3]:

- **Versions 0.1, 0.2, 0.3...:** Working draft development versions undergoing internal review [cite: 3].
- **Version 1.0:** First formally approved and issued baseline release [cite: 3].
- **Versions 1.1, 1.2...:** Minor revisions (formatting corrections, clarifications) that do not alter core policy requirements or authority boundaries [cite: 3].
- **Versions 2.0, 3.0...:** Major revisions resulting from substantial regulatory changes, structural reorganizations, or workflow overhauls [cite: 3].

6.1 Revision History Register (Illustrative Example)

Document ID	Title	Prev.	New	Rev. Date	Description of Change	Reason for Change	Prepared By	Approved By
STR-IT-POL-003	IT Rules Policy	0.1	1.0	19/10/2026	Initial baseline draft creation for review.	Startup establishment governance.	Web Specialist	Managing Director

7. DOCUMENT REVIEW AND APPROVAL WORKFLOW

Every controlled document must progress through a formalized 14-step review and approval lifecycle before being issued for operational use [cite: 3]:

DOCUMENT CONTROL APPROVAL LIFECYCLE

Step 1 (Identification): Identify operational need for a new policy or SOP revision [cite: 3].
Step 2 (Assignment): Assign a unique Document ID and designate a Document Owner [cite: 3].
Step 3–6 (Drafting & Review): Prepare draft (`v0.1`), review for accuracy, and collect cross-departmental feedback [cite: 3].
Step 7–9 (Approval): Submit final draft to Authorized Approver (Managing Director); record approval date [cite: 3].
Step 10–14 (Publishing & Distribution): Assign effective date, publish to secure cloud repository, notify staff, archive superseded versions, and update Master Register [cite: 3].

8. REVIEW SCHEDULE AND OVERDUE DOCUMENT MONITORING

To ensure policies remain aligned with business needs and legal standards, all controlled documents are subject to mandatory periodic reviews [cite: 3]:

- **IT & Security Policies (Annual):** Reviewed at least annually or immediately following a security incident or major tech change [cite: 3].
- **HR & Finance Policies (Annual):** Reviewed annually or when administrative processes or Pakistani regulatory requirements change [cite: 3].
- **Operational SOPs & Manuals (Annual):** Reviewed annually or after significant workflow modifications [cite: 3].
- **Business Continuity Plan (Annual):** Reviewed annually or following a continuity test or incident simulation [cite: 3].
- **Marketing & Brand Guidelines (Annual):** Reviewed annually or after major brand repositioning [cite: 3].

9. CONTROLLED DOCUMENT STORAGE AND ACCESS SECURITY

Official approved documents are stored centrally in designated secure folders on Google Cloud Enterprise Drive [cite: 3]. Working drafts are strictly separated from approved baselines [cite: 3]. Access permissions are role-based: all employees have read-only access to approved operational policies, while editing permissions are restricted exclusively to designated document owners and the Managing Director [cite: 3].

10. DISTRIBUTION AND EMPLOYEE ACKNOWLEDGMENT

When a new policy or revision is issued, the Project Manager notifies relevant department personnel [cite: 3]. Employees must confirm receipt via the Acknowledgment Record (`STR-DOC-A06`) [cite: 3].

Document ID	Title	Ver.	Recipient Role	Distribution Date	Method	Acknowledgment Status
STR-IT-POL-003	IT Rules Policy	1.0	All Personnel	TBD	Cloud Notification	Pending Approval

11. DOCUMENT STATUS DASHBOARD

As of **19 October 2026** [cite: 3], the status of Strativa Consulting's 15 foundational deliverables is summarized below [cite: 3]:

Document Status Category	Count	Percentage (%)	Action Required
Approved & Effective	0	0%	Pending initial management review and formal sign-off.
Draft — Pending Management Approval	15	100%	Complete executive review and execute formal approvals.
Under Revision / Overdue	0	0%	None (Initial baseline establishment).
Total Managed Deliverables	**15**	**100%**	**Full master register populated.**
